WASHINGTON

Notice of Proposed Withdrawal and Reservation of Lands

DECEMBER 5, 1967.

The Department of the Army, Corps of Engineers, has filed application, OR 2711 (Wash.), for the withdrawal of national forest lands described below, from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, subject to valid existing rights.

The applicant desires the use of the lands for construction, operation, and maintenance of the Wymocsee Reservoir Project.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, 729 Northeast Oregon Street (Post Office Box 2935), Portland, Ore. 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources.

He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:
